Odorless Phosphate

—THE—

GREATEST WHEAT GROWER KNOWN.

More than 77 per cent. of everything found in the ashes of wheat is also found in the analysis of the Odorless Phosphate. No other fertilizer in the market possesses all these essential elements in so large a degree.

With the removal of every crop, a portion of these elements is exhausted. The atmosphere yields back a part to the soil and the balance must be replaced by man.

Odorless Phosphate makes up this loss greater than any other fertilizer on the market and gives back the old time crops we used to get, when your soil was in its virgin state, because it contains the very elements that nature gives to make up a good, strong, rich producing soil, the main growing element which is phosphoric acid. In the Odorless Phosphate we give you over three times the amount contained in any other fertilizer on the market, namely: 21.37 per cent. or 427 pounds of phosphoric acid to the ton, and of lime 45.26 per cent., 1110 pounds of Phosphate of Lime, and 216 pounds of free lime to the ton, besides the other parts necessary to plant life, which we give complete in our analysis.

Send for circulars giving analysis and full description of this wonderful product.

Bring your best Royal Satsuma
Squash to our stand on Fair
Grounds and get the prizes. . .

• EASTERN MICHIGAN FAIR, •

TO BE HELD AT

YPSILANTI, MICH., SEPT. 15 to 18, 1891.

DEAR SIR:—Realizing the great good you can do us by a little aid, our Society takes this method of calling your attention to our Annual Fair.

We are desirous of making the Fair unusually fine and large this year, and to that end wish to awaken as extensive a personal interest in it as it is possible to do.

We believe you to be our friend, and also recognize the fact that your influence, if exerted, would be the means of gaining us other friends and patrons among your neighbors and associates.

We trust that you will not abate the favors you have hitherto shown for our exhibitions. We look to you not only to give us your accustomed patronage, but to increase it as well as to aid us by bringing patronage from those who have been strangers to our Fair.

By making mention of it to those whom you meet, and suggesting the propriety of their getting something prepared to exhibit, or if they can't do so, that they at least attend one or more days, expressing your intention to do likewise, you will help in creating a prominence for the Fair that will bring it the success we are striving for.

Please read and preserve this pamphlet for use during the fair.

We especially call your attention to our list of advertising patronage, each of whom you will find honorable dealers and deserving of your confidence.

Any aid you can do us will be duly appreciated. In behalf of our Officers and Board of Directors, I am

Very respectfully yours,

F. P. BOGARDUS, Secy.
